

## Contents

<b>Chapter 1 Purpose And Need .....</b>	<b>1</b>
Introduction .....	1
Background .....	2
Road Construction .....	2
Historic Significance .....	3
Visitor Use and Experience .....	3
Previous Studies .....	4
Management Direction .....	6
Recent Studies .....	6
Recommendations for Rehabilitation .....	7
Purpose and Objectives .....	7
Need for the Project .....	8
Needs Associated with the Road’s Structure .....	8
Needs Associated with Safety .....	14
Needs Associated with Deterioration of Cultural Resources .....	15
Needs Associated with Damage to Environmental Resources .....	15
Needs Associated with Deficiencies in Visitor Use Facilities .....	15
Scoping and Public Involvement .....	24
Issues Considered in this EIS .....	25
Natural Resource Issues .....	25
Cultural Resource Issues .....	27
Visitor Use and Experience Issues .....	28
Park Operation Issues .....	28
Local and Regional Economic Issues .....	28
Environmental Justice Issues .....	28
Impact Topics .....	29
Impact Topics Considered .....	29
Impact Topics Dismissed from Further Consideration .....	29

Relationship to Other Planning Projects .....	29
General Management Plan .....	29
Commercial Services Plan/Environmental Impact Statement .....	30
Roadside Maintenance Guideline .....	31
West Entrance Plan .....	31
Transportation Plan/EA .....	31
Resource Management Plan .....	32
Exotic Vegetation Management Plan .....	32
Decision Process .....	32

<b>Chapter 2 Proposed Action and Alternatives .....</b>	<b>33</b>
Alternative Development Process .....	33
Design Standards for Road Rehabilitation .....	34
Alternative 1—No Action (Repair as Needed) .....	34
Scheduling and Funding .....	35
Traffic Management .....	35
Transit Service During Rehabilitation .....	35
Operations and Maintenance .....	35
Visitor Use Improvements .....	38
Mitigation .....	38
Alternative 2—Priority Rehabilitation .....	38
Scheduling and Funding .....	39
Traffic Management .....	39
Transit Service During Rehabilitation .....	40
Operations and Maintenance .....	40
Visitor Use Improvements .....	40
Mitigation .....	40

Alternative 3—Shared Use with Extended Rehabilitation Season (Preferred) .....	40
Scheduling and Funding .....	41
Traffic Management.....	41
Transit Service During Rehabilitation.....	42
Operations and Maintenance.....	42
Visitor Use Improvements .....	43
Mitigation for Alternative 3 .....	51
Alternative 4—Accelerated Completion with Isolated Road Segment Traffic Suspensions (Accelerated Completion) .....	54
Scheduling and Funding .....	54
Traffic Management.....	54
Transit Service During Rehabilitation.....	55
Operations and Maintenance.....	55
Visitor Use Improvements .....	55
Mitigation for Alternative 4 .....	55
Actions Common to All Alternatives .....	56
Proposed Rehabilitation Work by Road Segment .....	56
Road Rehabilitation Techniques .....	58
Vegetation Management .....	61
Construction Staging During Rehabilitation.....	62
Material Sources .....	62
Traffic Management and Visitor Access During Construction .....	63
Mitigation Measures .....	64
Alternatives and Mitigation Excluded From Further Consideration.....	70
Convert the Going-to-the-Sun Road to a One-Way Loop During Rehabilitation.....	70
Visitation and Local Economic Impact Mitigation Eliminated from Consideration .....	71

Environmentally Preferred Alternative .....	71
Alternative 1—No Action (Repair as Needed).....	71
Alternative 2—Priority Rehabilitation.....	72
Alternative 3—Shared Use .....	72
Alternative 4—Accelerated Completion.....	72
The Environmentally Preferred Alternative .....	72
Summary .....	73

<b>Chapter 3 Affected Environment .....</b>	<b>81</b>
Socioeconomic Resources .....	82
Park Visitation and Operations .....	82
Local and Regional Economy .....	91
Cultural Resources .....	106
Archaeological Resources.....	107
Historic Resources .....	108
Ethnographic Resources .....	111
Cultural Landscapes.....	111
Natural Resources .....	112
Topography, Geology, and Soils ....	112
Water Resources .....	114
Vegetation .....	116
Wetlands .....	120
Wildlife Resources.....	121
Aquatic Resources .....	124
Threatened and Endangered Species and Species of Concern .....	124
Air Quality .....	130
Visual Resources.....	131
Natural Soundscape and Lightscape .....	134
Wilderness and Wild and Scenic Rivers .....	135

## **Chapter 4 Environmental Consequences137**

Introduction.....	137
Methods.....	138
Cumulative Effects.....	138
Past Actions .....	147
Reasonably Foreseeable Activities .....	147
Impairment of Park Resources and Values .....	151
Socioeconomic Resources .....	152
Methodology for Socioeconomic Assessment.....	152
Projected Impacts on Visitor Experience, Visitation, and Local Spending .....	154
Projected Economic Impacts From Construction Activity.....	162
Projected Impacts on Park Operations .....	170
Fiscal and Community Impacts .....	171
Environmental Justice.....	172
Cumulative Impacts .....	172
Conclusion .....	175
Cultural Resources .....	176
Effects Common to all Alternatives.....	177
Effects of Alternative 1 (Repair As Needed) .....	179
Effects of Alternative 2 (Priority Rehabilitation).....	179
Effects of Alternative 3 — Preferred (Shared Use) and Alternative 4 (Accelerated Completion). .....	179
Cumulative Effects.....	180
Conclusion .....	180
Natural Resources .....	180
Topography, Geology, and Soils .....	180
Water Resources .....	183
Vegetation .....	186
Wetlands .....	189
Wildlife .....	190

Aquatic Resources .....	194
Threatened and Endangered Species and Species of Concern .....	196
Air Quality .....	205
Visual Quality .....	206
Natural Soundscape and Lightscape .....	209
Wilderness and Wild and Scenic Rivers .....	211
Sustainability and Long-Term Management.....	212
The Relationship between Short-Term Uses of the Environment and the Maintenance and Enhancement of Long-Term Productivity .....	212
Irreversible and Irretrievable Commitments of Resources .....	213
Adverse Impacts That Cannot Be Avoided.....	214

## **Chapter 5 Compliance with Federal and State Regulations .....215**

## **Chapter 6 Consultation and Coordination.....219**

List of Preparers and Contributors.....	219
Agencies, Organizations and Individuals To Whom This EIS Was Sent .....	222
Elected Officials .....	222
Federal Agencies.....	222
Canadian Government Agencies .....	222
State and Provincial Agencies .....	222
Organizations/Businesses .....	222

## **Chapter 7 References.....225**

Glossary .....	231
Index .....	233

## Figures

Figure 1. Vicinity Map.....	5
Figure 2. Going-to-the-Sun Road Corridor.....	11
Figure 3. Roadside Vegetation in 1939 (left); Roadside Vegetation Near the Same Location in 1987 (right). ....	20
Figure 4. Existing Trailheads.....	21
Figure 5. Existing Toilets.....	22
Figure 6. Existing Interpretive Sites. ....	23
Figure 7. Visitor Use Improvements.....	48
Figure 8. Study Area for Socioeconomic Analysis.....	82
Figure 9. Visitors to Glacier National Park (1979-2000).....	83
Figure 10. Monthly Visitors to Glacier National Park (1995-1999).....	84
Figure 11. Average Daily Visitation Levels at Glacier National Park (2001).....	84
Figure 12. Percent of Tourists Making Stops.....	87
Figure 13. Travel Routes To/From Glacier National Park, 2000. ....	88
Figure 14. Montana Economic Study Area.....	92
Figure 15. Seasonality in Monthly Unemployment Rates in the Montana Study Area. ....	96
Figure 16. Southwest Alberta Study Area for Socioeconomic Analysis. ....	103
Figure 17. Generalized Deer, Elk, and Moose Winter Range. ....	122
Figure 18. Harlequin Duck Habitat.....	123
Figure 19. Bald Eagle Territories.....	125
Figure 20. Grizzly Bear Autumn Habitat...	126
Figure 21. Cultural Landscape Segments. .	133
Figure 22. Geographic extent of reasonably foreseeable activities.....	149

## Tables

Table 1. Contributing features specifically identified in prior historic significance documentation, Going- to-the-Sun Road. ....	4
Table 2. Comparison of alternative features. ....	36
Table 3. Visitor use improvements along the Going-to-the-Sun Road included in Alternatives 3 and 4. ....	49
Table 4. Visitor development strategies recommended by the CAC.....	53
Table 5. Rehabilitation priority by Road segment and milepost (MP). ....	56
Table 6. Types of rehabilitation work for each method of traffic management.....	63
Table 7. Comparison of alternatives and impacts. ....	74
Table 8. Proportion of visitor groups participating in each activity.....	85
Table 9. Time spent in specific areas along the Road. ....	86
Table 10. Days spent in the Glacier National Park area by Park visitors.....	86
Table 11. Baseline GNP visitor expenditures by category and county (year 2000). ....	89
Table 12. Estimated direct and secondary output supported by GNP visitation (year 2001). ....	89
Table 13. Estimated direct and secondary employment supported by GNP visitation (year 2001). ....	90
Table 14. National Park Service employees by division at Glacier National Park. ....	91
Table 15. Montana portion of the study area land area and ownership.....	91

Table 16. Total employment, 1980 to 1999, three-county study area, Montana. ....	93	and tourism-related employment for Alternative 2.....	157
Table 17. Bed tax revenue per capita and revenue growth in the Montana study area. ....	94	Table 33. Projected annual effects on visitor expenditures for Alternative 2 (millions of year 2001 dollars).....	157
Table 18. Per capita personal income, Montana and three-county study area. ..	95	Table 34. Projected study area effects on Park visitation, annual expenditures, and tourism-related employment for Alternative 3.....	159
Table 19. Total personal income, Montana and three-county study area. ....	95	Table 35. Projected annual effects on visitor expenditures for Alternative 3 (millions of year 2001 dollars).....	160
Table 20. Unemployment rates, Montana and three-county study area. ....	95	Table 36. Projected study area effects on Park visitation, annual expenditures, and tourism-related employment for Alternative 4.....	161
Table 21. Study area population, Montana and three-county study area. ....	97	Table 37. Projected annual effects on visitor expenditures for Alternative 4 (thousands of year 2001 dollars).....	162
Table 22. Historical and projected population growth rates for the Montana study area. ....	97	Table 38. Summary of average annual visitation-related effects. ....	162
Table 23. Organizations involved in economic development and tourism promotion in the Montana study area. ..	99	Table 39. Projected Alternative 1 (baseline) annual construction activity by category (2001 dollars). ....	163
Table 24. Non-seasonal/reservation vacant units. ....	100	Table 40. Projected baseline annual effects on construction expenditures for Alternative 1 (2001 dollars). ....	164
Table 25. Expenditures per capita.....	106	Table 41. Projected construction expenditure for Alternative 2 (2001 dollars). ....	165
Table 26. Significant historic resources in the Going-to-the-Sun Road corridor. ..	109	Table 42. Projected effects on construction expenditures for Alternative 2 (2001 dollars). ....	165
Table 27. Federally listed threatened and endangered species evaluated for potential occurrence near the Going-to-the-Sun Road. ....	127	Table 43. Projected construction expenditures for Alternative 3 (2001 dollars). ....	166
Table 28. Going-to-the-Sun Road landscape segments (west to east).....	132	Table 44. Projected effects on construction expenditures for Alternative 3 (2001 dollars). ....	167
Table 29. Impact threshold definitions and duration. ....	139	Table 45. Projected expenditures for Alternative 4 (2001 dollars). ....	168
Table 30. Reasonably foreseeable future actions. ....	148		
Table 31. Alternative 1 (baseline) projections of GNP visitation.....	155		
Table 32. Projected study area effects on Park visitation, annual expenditures,			

Table 46. Projected construction expenditures for Alternative 4 (2001 dollars). .....	169
Table 47. Summary of Average Annual Construction-Related Effects .....	170
Table 48. Potential for disproportionate impacts on low income areas from each alternative. ....	173
Table 49. Summary and comparison of average annual direct and indirect effects of Road rehabilitation alternatives on study area economic output (2001 dollars).....	175
Table 50. Assessment of socioeconomic impacts associated with Road Rehabilitation. ....	177

## Appendices

Appendix A: Going-to-the-Sun Road Deficiencies and Repairs

Appendix B: Socioeconomic Impact Methods for Analysis and Supporting Data

Appendix C: Sensitive Wildlife and Plant Species
